WELCOME MESSAGE

It is my honor and pleasure to welcome you to the 28th anniversary of Egypt Gastro Hep. This year marks the 18th Hepatology and Gastroenterology post-graduate course and the 28th Egyptian workshop of therapeutic GI endoscopy to take place at our congress.

As we come together once again, our mission remains clear: to deliver an event enriched with scientific excellence and meaningful professional exchange. Participants from across the globe join Egypt Gastro Hep to share their insights, broaden their knowledge, and connect with colleagues who share the same passion for medical progress.

This year's program features a distinguished lineup of renowned experts presenting the latest advancements, breakthrough research, and innovative techniques shaping the future of our specialty. In addition to the scientific sessions, attendees will benefit from hands-on workshops, simulator-based training, and live endoscopy demonstrations designed to enhance both theoretical and practical skills.

We aspire to provide all participants with a comprehensive and inspiring experience—one that strengthens professional networks and contributes to continued medical development.

Thank you for being part of this year's congress. We wish you an enriching, memorable, and successful experience at Egypt Gastro Hep.
